

ADMINISTRATIVE PROFESSIONAL GROWTH

The Board encourages administrators to continue their professional learning by becoming involved in professional organizations, attending conferences, continuing their education, belonging to community organizations, attending and participating in District activities, and participating in other professional learning activities.

Professional learning should be designed to meet the professional growth needs of administrators and should include local job-related growth opportunities as well as opportunities to attend workshops, institutes, and conventions outside the District. School administrators are encouraged to continue their professional and personal growth, and to access opportunities and resources which are provided to them.

Requests to attend professional meetings outside the District shall be submitted to the appropriate District-level administrator prior to attendance. Eligibility to attend a professional meeting and the reimbursement of expenses incurred by attending any such meeting shall be determined in accordance with District policy.
